

How to locate and open Internet Explorer in Windows 10

Open Internet Explorer in Windows 10

In the Windows 10 taskbar search, type *Internet Explorer* and it will appear in the results. Clicking on it will open Microsoft Internet Explorer.

Pin IE icon to Windows 10 Start or Taskbar

Right-click on the Start search result and select *Pin to Start* or *Pin to taskbar*, according to your preference. The IE icon will get pinned.

Set IE as default browser in Windows 10

If you use it frequently, you can set it as your default browser via *Internet Options > Programs tab > Internet programs > Set programs*. Control Panel will open. You can set Internet Explorer as the default browser under *Set your Default Programs* applet.

Another ways to locate Internet Explorer in Windows 10

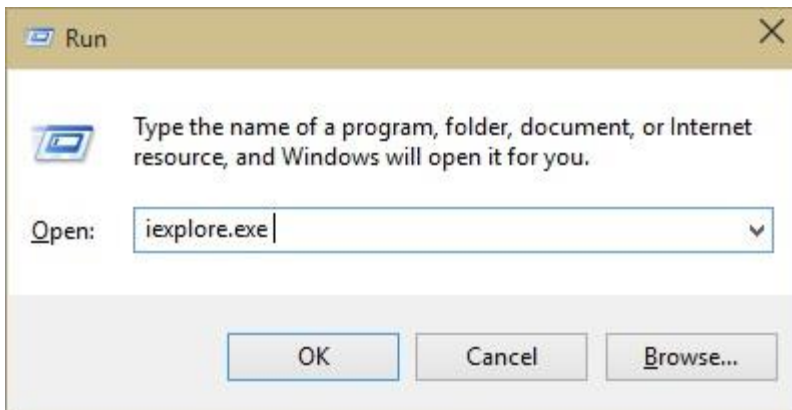

Another way you can locate it is:

Click Start > All Apps and look under *Windows Accessories*

Once you have located it, right click it and click *Pin to Taskbar*

Last, but not least, using the Run command.

Press *Windows key + R*

Type: **iexplore.exe**
